MEDICAL SKIN & LASER CLINIC

---

## Understanding who we are

Dermalaser Medical Skin & Laser Clinic is a leading provider of specialist skin treatments based in the picturesque town of Somerset West in the Cape Winelands. The clinic is owned by Plastic & Reconstructive Surgeon; Dr Winkler and three Dermatologists; Dr Mike Davis, Dr Ian Webster and Dr Pierre van Zyl who collectively bring 40 years worth of laser experience and expertise to the clinic. Keeping up with state-of-the-art latest technology, the clinic owns some of the best medical lasers available. Our skin and aesthetic laser therapists work under the guidance and strict protocols of our four medical specialists. As registered members of the South African Dermatology Physician Assistant's Association, all staff receive ongoing, innovative, evidence-based educational training by specialists in the field of Dermatology, enabling us to provide the highest quality professional patient care. Extensive training and years of experience, combined with great communication skills makes Dermalaser Medical Skin & Laser Clinic the clinic of choice for discerning clients.

*Your journey starts here*

**Aesthetic Therapist Consultation  
incl. Visia Skin Analysis**

**R 350**

Our Visia Skin Analysis is no average skin consultation. Our aestheticians are highly trained to use this latest digital imaging technology to understand aspects of your skin that are invisible to the naked eye. They will address your concerns and your skin's challenges by making treatment and product recommendations, with a long-term plan, set out according to your budget. The Visia Skin Analysis also gives us a scientific way of measuring the results we achieve for your skin.

Visia skin and complexion analysis reveals and measures:

- Lines and wrinkles
- Enlarged pores
- Redness and brown spots
- Skin texture
- Acne-causing bacteria
- Your skin type and "true age"
- Skin laxity / sagging
